D-Bomb

Kills 99.99% of viruses and bacteria in the air and on surfaces with one click.

This is a highly effective single release room treatment.

- 1.1** Simple single click operation, one click enables you to activate a specialist valve and nozzle which disperse the contents in the form of a mist, essentially fogging the room.
- 1.2** Contains considerably more than 61% Ethanol, the minimum recommendation by the British Government to kill Coronavirus within minutes.
- 1.3** Eliminates Coronaviruses and sanitises all upholstery and work surfaces - including door handles & light switches.
- 1.4** Saves time and cost on your sanitising and decontamination procedures.
- 1.5** This product is complete with a child safe locking cap for additional peace of mind.
- 1.6** Instantly reduces the potential for widespread contamination across rooms and regularly used environments.

D-Bomb

Kills 99.9% of Bacteria & Viruses.

D-Bomb Is effective against bacteria, viruses & mould spores.

How does D-Bomb work?

2.1 D-Bomb is a highly effective, powerful broad-spectrum germicide. The product is a highly effective all-surface sanitiser.

2.2 Allows you to rapidly and effectively sanitise an entire average size room or space of 40/50 cubic metres with just the push of a button.

2.3 A propellant inside the can sends out a fine citrus fragranced mist of powerful, disinfecting active ingredients that disperse throughout the area.

2.4 The D-Bomb fine mist gets to work on contact with every surface, eliminating a wide range of germs, including bacteria, yeasts and fungi that can be the cause of bad odours.

2.5 D-Bomb Is highly effective in killing all Coronaviruses and other harmful micro-organisms.

Manufactured in the UK

Tested to:

BS EN 1650	BS EN 13697
BS EN 16777	BS EN 1276

Directions for use.

3.1 Prepare

- Close all doors and windows.
- Switch off electrical appliances.
- Extinguish any naked flames.
- Cool any heated surfaces.
- Remove all people and pets from the room.

3.2 Press

- Place can in upright position in the middle of the room.
- Depress the button on the top of the can until it clicks into a locked down position.

3.3 Exit

- Leave the room immediately close door behind you. Can will now fully empty and fog the area.
- Leave for 30 minutes to allow the product to fully disperse.
- On re-entry open all doors and windows allowing for the room to clear.

D-Bomb

Not just another spray.

This is a highly effective single release room treatment.

Atmospheric Sanitiser & Deodoriser

- 4.1** Safe for use in areas of food preparation and related surfaces.
- 4.2** Product has a 99.9% kill rate.
